

Ross Dress for Less

PROJECT DESCRIPTION

Client: Ross Dress for Less

Location: Catoosa, OK (2016), Bartlesville, OK (2017),
St. Peters, MO (2017)

Knoebel Construction has completed several 22,000-square-foot building shell and interior finishes for Ross Dress for Less.

What makes Ross Dress for Less unique in the commercial real estate world is their turnover scheduling requirements and penalties. Knoebel understands the consequences, and we are up to the task with the knowledge, assurance and track record that we will meet the schedule.

The Catoosa, Oklahoma store was likely our biggest feat. The full shell and interior construction was completed within just six months. As with the other Ross locations, we provide a timely turnover meeting the highest of quality standards.
