

HOPCAT ST. LOUIS

PROJECT DESCRIPTION

Client: HopCat

Location: University City, MO

Surface Area: 8,580 square feet

Year Completed: 2018

Architect: Cuhachi & Peterson

Knoebel Construction was general contractor on the new HopCat restaurant and craft beer bar in the Delmar Loop of St. Louis, Missouri. The new location features seating for 245 guests, a draft bar, an outdoor beer garden with seating for 100, and event space.

Knoebel renovated the historic building that Hop Cat is housed in, while preserving as much of the original structure as possible, including wood beams and exposed brick.

HopCat is a Michigan-based chain established in 2008 with 17 locations across the Midwest. Each location's design and food and beverage menu reflect the local region.
