

Schnucks Fresh: Jasper IN

PROJECT DESCRIPTION

Client: Schnucks Markets

Location: Jasper, Indiana

Surface Area: 18,000 square feet

Knoebel Construction helped Schnucks Markets debut Schnucks Fresh, a smaller format design focused around their fresh departments, including produce, meat, seafood and bakery. Knoebel constructed the new location in a former Cash Saver building in Jasper's Germantown Shopping Center.

"As a new format for us, Schnucks Fresh will be a store that customers will be able to quickly and easily navigate, where they will find an extensive selection of the same fresh products for which Schnucks is known throughout the Midwest," said Schnucks Markets Chairman and CEO Todd Schnuck.

Knoebel previously worked on Schnucks Markets projects in the Missouri cities of Dardenne Prairie, Sunset Hills and Jefferson City.
